

7.1.9 Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens Students need role models in their lives who they can look up to and derive strength from during tough times of life.

It's a part of studies how students grasp opportunities to understand and accept the life, think about the current scenario and make oneself according to the need of the life. College students face their share of knowledge, awareness and stress during their academic careers and a role model can help them to pull through. And there cannot be a better place to look at beyond our freedom fighters, social workers who sacrificed everything for the sake of this country and had seen some of the worst of life's struggles. We can learn about dedication, determination, hard work, perseverance, positivity and much more from these figures and they are no doubt one of the best role models till date. Our Institution always trying to invite the excellent personalities of varied fields to create the positive vibes in our students.

1. Topic "The Overview of the Indian Capital Markets & Indian Economy"
2. developing general knowledge regarding Banking Sector, Financial Products
